# Material Safety Data Sheet

## Electrolyte-PAA–02

**Revision:** 05-09-2005

---

### 1. Product and Company Identification

**Product Identification:** Electrolyte-PAA - Part No.: 1023896

**Company Identification:**
ProMinent Dosierotechnik GmbH
69123 Heidelberg, Im Schuhmachergewann 5-11
- Germany -
Tel: +49 (0)6221 842-0

---

### 2. Composition / Information on Ingredients

contains:
- hydrogen bromide (HBr) CAS No. 10035-10-6 < 0.5 %
- potassium bromide (KBr) CAS No. 7758-02-3 < 10 %
- hydroxy ethylcellulose CAS No. 9004-62-0 < 10 %
in aqueous solution.

---

### 3. Hazards identification of the product

*not hazardous for health according to the regulation 67/548/EWG*

---

### 4. First aid measures

- **After skin contact:** Rinse with water. Remove contaminated clothes.
- **After eye contact:** Flush eyes with copious amounts of running water while lid is open.
- **After ingestion:** Drink plenty of water. Provoke vomiting. See a physician when feeling sick.

---

### 5. Fire-fighting measures

Suitable extinguishing media: are to be fit in with the environment.
Extinguishing media which must not be used for safety reasons: not applicable
Special exposure hazards : not flammable.

---

### 6. Accidental release measures

Remove with liquid-adsorbing material. Rests are to be flushed away with plenty of water.

---

### 7. Handling and storage

**Handling:** The product is to be handled with the usual care and caution for chemicals.
**Storage:** Keep original container tightly sealed.
8. Exposure / personal protection

Breathing equipment: necessary in case of vapours / aerosols occurring
Eye protection: necessary
Hand protection: necessary

9. Physical and chemical properties:

Physical state: viscous liquid
colour: colourless
odour: inodourous
pH: ~ 2.5 (undiluted at 20 °C)
cold sensitivity: under -5 °C
flash point: not applicable
vapour pressure: (aqueous solution)
relative density: ~ 1.05 kg/l (20 °C)
solubility: miscible in water (20 °C)

10. Stability and Reactivity

Conditions to avoid: no decomposition if used according to specifications
Materials to avoid: metals
Hazardous decomposition products: hydrogen bromide

11. Toxicological Information

Quantitative data about the toxicity of the product are not available. Hazardous properties are not quite probable.
hydrogen bromide LD₅₀ : not available
potassium bromide LD₅₀ : 3070 mg/kg oral
hydroxy ethylcellulose LD₅₀ : not available

12. Ecological Information

When handled and used according to specifications, ecological problems are not to be expected.

13. Disposal Considerations

In consultation with the responsible local authority, must be subjected to special treatment: neutralisation. In case of chemical collecting actions of the authorities, small containers can be handed over together with this safety data sheet.

14. Transport Information

The product is not a hazardous material according to the transport regulations:
15. Regulations

Classification and labelling according to the EEC regulations:
Symbols of danger: ---
R-phrases: ---
S-phrases: ---
National prescriptions:
Water hazard class (WGK): ---

16. Other Information

This information is based on our current level of knowledge and relates to the product in the state in which it is delivered. It is intended to describe our products from the point of view of safety requirements and is not intended to guarantee any particular properties.
Since ProMinent cannot anticipate or control the conditions under which this product may be used, each user must, before using this product, assess and control the risks arising from their use of this product.
