Documentation for Meter Pump Parameters: Type S2Ca

Customer: ___________________________ Date: ________
Location: ____________________________
Reference: ____________________________
PFC Order Number: ____________________

Pump information: S2Ca__________________________
Serial number: ____________________________

Pump Programming:

Operating Mode: (Manual) (Analog) (Contact) (Batch)
Access CODE: (None)
Code 1: ____________
Code 2: ____________

Manual settings: Frequency: ________ spm (Stokes per minute)
Analog settings: (0-20 mA) (4-20 mA) (Curve)
Curve: ( - - - - ) ( /^- ) ( \^- )
I1: ________ mA F1: ________
I2: ________ mA F2: ________
ER: (on) (off)

Contact settings: Memory: (on) (off)
Factor: ____________

Batch settings: Memory: (on) (off)
Number of Strokes: ____________
Batch Volume: ____________

Calibration: (off) (on) (L/h)
(gal/h)

Auxiliary: ____________ spm

Flow Monitor: (on) (off)

Stroke Length Setting: ________ %

Chemical being metered: ____________________________

Suction Conditions: ____________________________

Discharge Conditions: ____________________________
