Documentation for Meter Pump Parameters: Type S3Ca

Customer: ___________________________ Date: ________
Location: ___________________________
Reference: ___________________________
PFC Order Number: ___________________

Pump information: S3Ca
Serial number: _________________________

Pump Programming:

Operating Mode: (Manual) (Analog) (Contact) (Batch)
Access CODE: (None)
Code 1: __________
Code 2: __________

Manual settings: Frequency: _________ spm (Stokes per minute)
Analog settings: (0-20 mA) (4-20 mA) (Curve)
Curve: (- - - - -) (\_\_\_\_\_) (\_\_\_\_\_\_) (\_\_\_\_\_\_) (\_\_\_\_\_\_)
I1: __________ mA  F1: __________
I2: __________ mA  F2: __________
ER: (on) (off)

Contact settings: Memory: (on) (off)
Factor: ______________

Batch settings: Memory: (on) (off)
Number of Strokes: ____________
Batch Volume: ______________

Calibration: (off) (on) (L/h)
(gal/h)

Auxiliary: _____________ spm
Flow Monitor: (on) (off)

Stroke Length Setting: ____________ %

Chemical being metered: ____________________________________________
Suction Conditions: ________________________________________________
Discharge Conditions: _____________________________________________
