

Corrosion Coupon Racks

Experts in Chemical Feed and Water Treatment

Corrosion monitoring system

ProMinent® introduces a new Corrosion Coupon Rack designed for monitoring corrosion in cooling towers and boiler applications. The pre-engineered system is mounted on a backplane with 1" PVC piping. Includes visual inspection of coupons using clear PVC piping.

Applications

- Cooling Water
- Condensate Loops
- Chiller Systems
- Low Pressure Boilers

Features

- 2 and 4 coupon design
- 1" PVC sch 80, Maximum 150psi/120 °F
- Will accommodate 3/4" and 1" coupon holders
- Mounted on 3/8" PE backplane
- Y-strainer standard on all models
- Clear PVC for visual inspection of coupons
- Foam covers on clear PVC piping to prevent algae growth

Options

- Rotameter, 10 GPM
- Check Valve
- Dole Valve, 5 GPM
- Globe Valve

2 Coupon Design (P/N 7746430)

4 Coupon Design (P/N 7746435)
