

NEW cellular internet modem kits for ProMinent controllers

Stay connected to your PFC ethernet-ready controllers 24/7 via cellular data modem!

New modem uses built-in cellular internet routing technology to provide ProMinent ethernet-ready controllers with its own connection to the internet – without phone or LAN lines.

A single kit can accommodate one or more of the following controllers:

- AEGIS
- MultiFlex
- SlimFlex
- MicroFlex
- DCM2 (Aquatics)
- DCM5 (Aquatics)

Features & Benefits

- Wifi hotspot allows onsite laptops to wirelessly connect to controllers, email service reports from the site, etc
- Cellular subscription included. Data plans tailored to industrial monitoring (static IP), pre-programmed and ready to start-up upon receipt
- Compatible with web-based monitoring packages (Trackster)
- Alert notification service option available via email and text message depending on controller brand & mode
- Internal or external kits available
