

Specification Sheet:

Date: June 7, 2004
Subject: Sensor Specification
Product: Aquatrac Cooling Tower Conductivity sensor

Page : 1 of 1

Conductivity Sensor with built-in Temperature Sensor for Compensation. Wires Directly to ALL MultiFLEX Conductivity Inputs and Smart AS/Flex Door Conductivity Inputs.

Inline Connection:	3/4" Socket Weld, Sch. 80
Material:	PVC, Epoxy
Temperature Sensor:	Linear, 10mV/°K
Temperature Sensor Accuracy:	+/- 0.5 °F
Max. Pressure:	125 PSI @ 125 °F (52 °C)
Union Connection:	3 1/2" NPT, Sch. 80
Installed length:	6"
Electrical Connection:	10', 4 Cond. 24 AWG, Extend up to 350 ft.
